

international Artinvestors & international Artinstitute

Introduction

Investments in Art have been promoted during the last years at large and some experiences show, that even in a critical economic situation, investments in art are still valid.

As in all other areas of investment, investment in art can be profitable, if the investor and the advisor has the necessary knowledge and experience.

What is the aim of INTERNATIONAL ART INVESTORS?

Our aim is to form a group of partners interested in art and willing to participate in the development of this project. All partners should be willing to invest capital and time for the development of the structure as well as the management of the INTERNATIONAL ART INVESTORS & INTERNATIONAL ART INSTITUTE. To make it clear, we have on one side economical interests but on the other side also interest related to the social and cultural development of the partnership.

By adding the **INTERNATIONAL ART INSTITUTE** to this project, we aim on art education for future collectors as well as events with experts, artists, financial advisers, curators etc. Partners call then take full profit of the experiences of such people as well as get advice from them.
